Summary

Entrepreneurial Product Designer with experience across Tech R&D, Fintech, Adtech, and arts & culture. Proven track record of owning the full product design lifecycle as the sole designer, driving a 25% increase in conversion rate. Skilled in end-to-end UX/UI and Figma, with an AI-assisted workflow for ideation, research, and iteration.

Professional Experience

Founding Product Designer | Blip Billboards (Remote) Jan 2025 - Present

- Driving a 21.7% revenue increase, by overhauling the entire marketplace web app, defining UX best practices and feature offerings.
- Partnering with the Head of Growth, CEO, COO, and Head of Technology to shape product strategy and evolve the platform into a data-driven, tech-forward product.
- Lead company-wide user research initiatives, fostering a culture of user-centered design from discovery through launch, resulting in a 17.5% lift in conversion rates.
- Driving 41% Day 1 retention by designing advertiser-facing dashboards, visualized campaign performance and outcomes across locations, helping users understand patterns, tradeoffs, and results at a glance.
- Establishing the company's design system and brand identity in collaboration with Marketing and Design, boosting product conversion by 47.6%.

Product Designer | Asian Cinevision Pro-bono (Remote) Mar 2024 - Dec 2024

- Increased ticket sales by 180% by optimizing user flows and conducting usability testing with cross-functional engineering, product, and marketing teams.
- Contributed to the design system by developing reusable components and iterating on designs based on user feedback, improving design consistency and scalability.

Product Designer, Intern | Vestwell (Hybrid) Jun 2024 - Aug 2024

- Reduced design inconsistency and decreased design work time by 50% across 17 platforms by building a cohesive design system for marketing communications websites, collaborating with PMs, marketing, and engineering.
- Actively contributed to ongoing design system development, iteratively updating and refining components based on user research and stakeholder feedback.
- Delivered high-fidelity prototypes for navigation features and visual designs that enhanced the platform's usability, addressing key pain points and improving satisfaction.

Product Designer, Intern | Samsung Research America (Remote) May 2022 - Dec 2022

- Improved usability by 25% for enterprise XR users at Samsung R&D, designing and prototyping productivity features for tech-savvy users navigating multi-device workflows across XR, laptop, and mobile.
